

Mentor

winter oilseed rape

Mentor is resistant to common strains of clubroot and had an AHDB specific recommendation (Sp) for both East/West and North regions in 2019/20. It has a high gross output with good stem stiffness and good agronomic characteristics.

- ✓ Mentor has good seed yield combined with high oil content to give good gross output.
- ✓ Mentor has good resistance to Light leaf spot.
- ✓ Mentor has good stem stiffness and resistance to lodging.
