

# Resort

## winter oilseed rape

Resort is a high erucic acid rape (HEAR) variety intended for specialist use in industrial processes and is the only such 'Described variety' on the AHDB Recommended List.

- ✓ **Resort** has high seed yield combined with high oil content to give high gross output.
- ✓ **Resort** has resistance to Stem canker and to Light leaf spot.
- ✓ **Resort** has good stem stiffness and resistance to lodging.
