

# Tiffany

spring bean

Tiffany is a Provisionally Recommended (P2) spring bean variety in the new 'Pale Hilum LVC' category of the PGRO Recommended List for 2020. Its high protein and low vicine and convicine content are characters that will help to further develop the UK pulse market with end users.

- ✓ Tiffany is being marketed with premiums on buy back contract for specialist animal feed use.
- ✓ Tiffany has comparable high yields to the other leading spring bean varieties.

## SPRING BEANS - PGRO Recommended List 2020

The control for yield comparisons is the mean of Vertigo & Lynx. Yield differences of less than 4.5%(p=0.05) should be treated with caution.

Recommendation categories: R=Recommended, P1,P2=1st & 2nd year provisional recommendation, O=Becoming Outclassed

A high figure indicates that the variety shows the character to a high degree.

The scales of characters of spring beans do not necessarily correspond with those for winter beans.

The export market usually requires pale hilum types. LVC = Low Vicine & Low Convicine. © PGRO 2019
